

- 1 Download our cookie recipe card PDF.
- 2 If you have Adobe Acrobat on your computer, you can edit the card to add your favorite cookie recipe. Be sure to save your own recipe as a separate file and leave one blank to send off to each friend you choose to invite to your cookie swap.
- 3 Choose 3-5 friends or family members to email your recipe card and include a blank one as attachments.
- 4 Include a note with your recipe explaining the cookie swap to encourage the recipient to return a card with a favorite cookie recipe of their own and to keep the swap going by choosing additional friends and family they want to invite to the swap.
- 5 Be sure to take pictures of all the cookies you bake and share it with us by tagging it with #DixieCheerCookieSwap. P.S. You can also just print out a recipe card sheet, fill it in and send it off by mail—simply fold the sheet in half, tape it and add a stamp and address to the outside.
