ACTIONABLE HYGIENE CHECKLIST

ALIGNING GP PRO SOLUTIONS WITH OSHA GUIDANCE

v060320

ACTIONABLE HYGIENE CHECKLIST

To assist you in assuring safe and healthful workplaces for all employees, this Actionable Hygiene Checklist aligns GP PRO solutions to OSHA guidance specific to COVID-19.

[CLICK FOR FULL VERSION](#)

Implementations		Action
Basic Infection Prevention Measures		“ Promote frequent and thorough hand washing , including by providing workers, customers, and worksite visitors with a place to wash their hands. If soap and running water are not immediately available, provide alcohol-based hand rubs containing at least 60% alcohol.”
		“Provide customers and the public with tissues and trash receptacles .”
		“Maintain regular housekeeping practices, including routine cleaning and disinfecting of surfaces , equipment, and other elements of the work environment.”
Engineered Workplace Controls		“Installing physical barriers , such as clear plastic sneeze guards”.
Safe Workplace Practices		“Providing resources and a work environment that promotes personal hygiene. For example, provide tissues, no-touch trash cans, hand soap , alcohol-based hand rubs containing at least 60 percent alcohol, disinfectants, and disposable towels for workers to clean their work surfaces.”
		“Requiring regular hand washing or using of alcohol-based hand rubs. Workers should always wash hands when they are visibly soiled and after removing any PPE.”
		“ Post handwashing signs in restrooms ”

HEALTHCARE SEGMENT

KEY CONSIDERATIONS FOR HEALTHCARE FACILITIES

Their Initiatives

How our hygiene checklist can assist them?

Preventing HAIs (*Healthcare Associated Infections*)

Improve patient outcomes and reduce costs of HAIs

- Consider **touch-free systems** to help reduce cross-contamination.
- Consider **skin care formulations with moisturizers** to help prevent irritant contact dermatitis.
- Consider **adding hand lotion** to help improve hand skin quality.
- Consider **disposable surface disinfection wipers** to help environmental decontamination.
- Consider **foodservice disposables** and touchless dispensers in break rooms and cafeterias.
- Consider staff **hand hygiene education and messaging** in break rooms.

Improving the Patient Experience

Provide better quality patient care

- Consider **touch-free systems** to help communicate an overall hygienic facility.
- Consider **matching dispenser** to improve the overall aesthetics of the facility.
- Consider disposable hygienic single-use **patient washcloths and towels**.
- Consider **covered dispensers** and **toilet seat covers** to communicate a hygienic facility.
- Consider **hand hygiene signage** and performing hand hygiene in front of patients.
- Consider **facial tissue** for patient use.
- Consider single use **disposable foodservice** products for patients.

Increasing HCAHP Scores

Drive up satisfaction scores and increase patient revenue

- Consider the **latest technology dispensers** that provide whisper quiet dispensing and **familiar brands** to improve overall facility perception,
- Consider **stainless dispensers** in public areas that can help improve the overall aesthetes.
- Consider **high capacity dispensing** systems that help ensure products are available when needed.
- Consider **air care systems** to improve the overall air quality in the facility.
- Consider providing **seat covers, door tissue** and **facial tissue** for improving the overall experience.
- Consider **foodservice disposables** to reinforce a hygienic facility.
