# Dixie Delivers Innovation

<sup>1</sup>When switching from a full fold napkin to the Dixie Ultra™ 2-ply interfold napkin and dispensing system  
<sup>2</sup>Compared to open bins.

## The break room is no longer just a break room.

It's an informal meeting place. An alternative workspace. But most important, it's a space that should provide the reliable essentials that are an essential part of every employee's well-being and productivity. That's where GP PRO comes in. See, high-quality Dixie® products are more than an investment in your break room. They're an investment in the people who are the backbone of your business.

Of course, GP PRO® products do more than make a positive impact on employees. They can also impact your bottom line with waste-reducing, cost-efficient design. With Dixie solutions, your employees will see and feel the difference. It's a cup that doesn't require a sleeve. A napkin that dispenses easily. And an overall experience that's just a little more like home.

We know that more employers are encouraging breaks—and for every 15% increase in employee satisfaction, productivity increases 1-4%\*. Want to make sure your break room really satisfies? Then count on Dixie to be the one manufacturer you can trust to handle all your disposable needs.

With Dixie® products in your break room, you'll show appreciation for quality. But it's the appreciation for your employees that'll really shine through.

GP PRO® knows you've got a ton on your plate. **Let us help with that.**

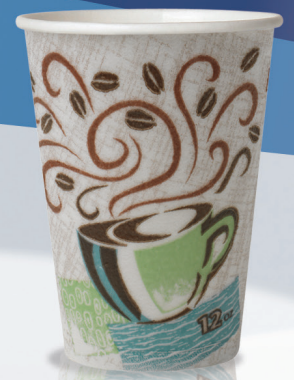

**GP PRO — a company long recognized for quality, cleanliness and innovation — is proud to stand behind the Dixie® and Dixie Ultra® family of products.**

Made from 100% plant-based material

### FOAM-FREE, DURABLE TABLE TOP SOLUTIONS

#### DIXIE ULTRA® HEAVY WEIGHT PAPER PLATES AND BOWLS

**SPACE-EFFICIENT**  
Require 66% less storage and shipping space than polystyrene foam.

**PATENTED DESIGN**  
Patented rim design offers a stronger plate and Soak-Proof Shield® contains even the messiest foods.

**EcoSmart**  
by Georgia-Pacific  
USDA Certified Biobased product.  
Recyclable and Compostable\*  
\*Product may be recycled if you have access to a recycling facility that accepts paper product containing food residue. Product may be processed in commercial composting facilities that have final screening capability. Such facilities may not exist in your area. Product contains approximately 91% compostable cellulose fiber by weight.

#### DIXIE® PERFECTOUCH® INSULATED PAPER HOT CUP

**INTELLIGENT**  
Comfortable, sturdy, non-slip feel. Patented paper process provides unique insulation.

**COST EFFECTIVE**  
Eliminates the need for costly double-cupping and sleeves.

**EcoSmart**  
by Georgia-Pacific  
USDA Certified Biobased product.  
Contains approximately 80% renewable material\*  
\*Renewable material includes plant-based materials that can be regenerated at a faster rate than they are used.  
Recyclable and Compostable\*  
\*Product may be recycled if you have access to a recycling facility that accepts paper product containing food residue. Product may be processed in commercial composting facilities that have final screening capability. Such facilities may not exist in your area. Product contains approximately 80% compostable cellulose fiber by weight.

### IMAGE ENHANCING, WASTE REDUCING DISPENSING SOLUTIONS

#### DIXIE ULTRA® INTERFOLD NAPKIN DISPENSER

**COST EFFECTIVE**  
Helps reduce usage by 29% when switching from standard full fold napkin format.  
When switching from a full fold napkin to the Dixie Ultra™ 2-ply interfold napkin and dispensing system

**EASY TO MAINTAIN**  
New latch system enables operators to open with just a lift of a finger.

**EcoSmart**  
by Georgia-Pacific  
100% recycled fiber, plus select third party sustainability certifications.  
**EPA COMPLIANT**  
Contains at least 50% Post consumer recycled fiber. Meets or exceeds EPA comprehensive procurement guidelines.  
epa.gov/smm/comprehensiveprocurement-guidelinespaper-and-paper-products

#### DIXIE ULTRA™ SMARTSTOCK® CUTLERY DISPENSER SYSTEM

**COST EFFECTIVE**  
Helps reduce usage on average by 29% compared to open bins.

**INCREASED FOOD SAFETY**  
Promotes good hygiene - enclosed design helps protect cutlery from contaminants.

**IMAGE ENHANCING**  
Helps provide a clean and hygienic counter space.

**EcoSmart**  
by Georgia-Pacific  
Reduces usage on average by 29% compared to open bins.
